A Message from Leadership

Dear Friends,

Your support over the past two years has been vital in helping Holy Cross Health bring hope and healing to the Broward community. Since 1955, your generosity has allowed us to carry forward our mission and make a lasting impact in the lives of those we serve. We are truly grateful for your commitment to our work and for making such a meaningful difference in our community.

As we proudly celebrate the achievement of raising over \$15.1 million in FY2023 and FY2024, we also acknowledge the significant impact made by disbursing more than \$18.3 million from restricted funds to advance the hospital's programs and patient care initiatives. These funds have been instrumental in supporting new capital projects and state-of-the-art medical equipment, while enhancing world-class care in cardiovascular, cancer, orthopedic, and neurosciences. Because of your generosity, we were able to deliver high-quality healthcare with over 1,395,000 patient encounters, making a profound difference in the lives of those we serve.

Through this philanthropy report, we're proud to showcase the stories of impact, the advancements we've made, and how your philanthropic investment has improved the lives of our patients, empowered our clinicians, and strengthened our community. To celebrate the generosity of our most dedicated supporters, we unveiled eight new Giving Society levels and a Philanthropy Gallery donor wall.

Philanthropy fuels our vision of excellence. Together, we are shaping the future of medicine and creating better outcomes for those we serve.

Thank you for your generosity and for being a valued partner on this journey of health and healing.

With Gratitude,

Laura Denoux

Vice President &
Chief Development Officer

Rudy Molinet

Board Chair

Our Mission

We, Holy Cross Hospital and Trinity Health, serve together in the spirit of the Gospel as a compassionate and transforming healing presence within our communities.

Our Vision

As a mission-driven innovative health organization, we will become the national leader in improving the health of our communities and each person we serve. We will be the most trusted health partner for life.

Our Core Values

As a faith-based healthcare ministry, it is vitally important that we meet both our challenges and opportunities in the context of-and in accordance with our "Core Values." These are:

Reverence

We honor the sacredness and dignity of every person.

Justice

We foster right relationships to promote the common good, including sustainability of Earth.

Commitment to Those Experiencing Poverty

We stand with and serve those who are experiencing poverty, especially the most vulnerable.

Safety

We embrace a culture that prevents harm and nurtures a healing, safe environment for all.

Stewardship

We honor our heritage and hold ourselves accountable for the human, financial and natural resources entrusted to our care.

Integrity

We are faithful to who we say we are.

Accolades

Holy Cross Health has been named by *U.S. News & World Report* to its 2024-2025 Best Hospitals as a High Performing Hospital for Congestive Heart Failure, Chronic Obstructive Pulmonary Disease (COPD), Heart Attack, Hip Replacement, Knee Replacement and Stroke. This is the highest distinction a hospital can earn in the ratings for *U.S. News & World Report's* Best Hospitals Procedures & Conditions.

Total Raised for FY23 and FY24 by Designation

Over the past two fiscal years, we have had the privilege of partnering with many generous donors and supporters whose commitment to our mission has enabled us to make significant improvements across our hospital.

We are pleased to highlight recent donations that have made an immediate impact and will continue to benefit our community for years to come.

Guerrieri Family Medical Complex

The Guerrieri Family Foundation's most recent gift enabled us to transform our medical complex, which reopened in January 2024. Now known as the three-story Guerrieri Family Medical Complex, this advanced facility offers access to various Holy Cross Medical Group primary care physicians, upgraded amenities, and more.

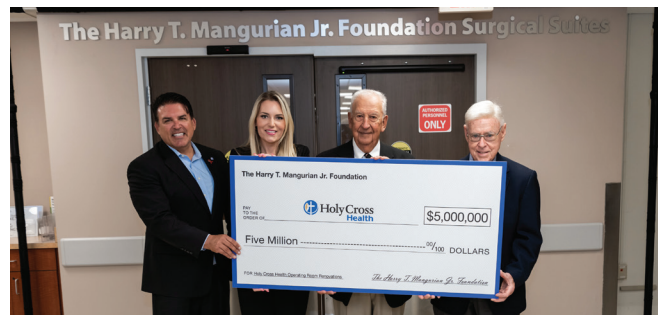

Tom Hathaway, Mark Doyle, Laura Denoux, Alan Guerrieri, Sandra Hatch, Cathi Guerrieri, Dr. Karan Munuswamy

Tom Hathaway, Laura Denoux, Dr. Karan Munuswamy, Cathi Guerrieri, Alan Guerrieri, Sandra Hatch, Mark Doyle

Harry T. Mangurian, Jr. Foundation Surgical Suites

The Harry T. Mangurian, Jr. Foundation has supported Holy Cross Health for decades, continuing its legacy of philanthropy. With a \$5 million gift, the Foundation funded the renovation of seven state-of-the-art operating rooms and critical support areas, a project completed in January 2024. These cutting-edge facilities enable our surgical teams to perform complex procedures with greater precision, improving patient outcomes and enhancing care.

Mark Doyle, Laura Denoux, Steve Mehallis, Gordon Latz

Rudy Molinet, Laura Denoux, Steve Mehallis, Brittany Henson

Jim Moran Heart and Vascular Center

The recent renovation of the Cardiac Catheterization Lab represents a leap forward in our ability to deliver exceptional, patient-centered cardiovascular care. With the addition of a state-of-the-art lab and two more projected for future updates, supported by a 17-bed admission and recovery area, we are now better equipped to manage an increasing patient volume while delivering timely, high-quality care. These upgrades are particularly critical in our community, where we serve numerous residents over 65, many of whom rely on swift and accurate cardiac interventions.

Our Catheterization Lab is a specialized space where doctors perform minimally invasive procedures to diagnose and treat cardiovascular conditions. Using advanced imaging technology, we can precisely guide catheters—thin, flexible tubes that access blood vessels and organs without large incisions—to perform critical procedures such as coronary angiography (imaging of the heart’s blood vessels), angioplasty (widening narrowed arteries), and stent placement. Additionally, the updated technology allows us to treat patients with temporary support devices when needed, reinforcing our capacity to deliver life-saving care in a time-sensitive environment.

In January 2024, we opened our Cardiac Imaging Unit, a significant step forward in expanding our capabilities for cardiac care. This unit is specifically designed to perform various procedures, including invasive and noninvasive echocardiograms, cardioversions, and EKGs, allowing us to accommodate more patients. The new unit features 12 rooms: four dedicated to echocardiograms and eight versatile procedural rooms equipped for various invasive and noninvasive procedures, along with areas for patient preparation and recovery. The unit is equipped with the latest monitors and technology, ensuring our patients receive the highest standard of care. Since its opening, the Cardiac Imaging Unit has handled a volume of 60 to 80 procedures each month, demonstrating its pivotal role in meeting the growing needs of our community.

Our fifth floor Cardiology office is undergoing a significant expansion, designed to elevate the level

of care we provide our community. This project is being executed in two phases.

Phase One, completed in March 2024 involved a comprehensive renovation, including new flooring, painting, cabinetry, and state-of-the-art equipment, including Midmark EKGs and Phillips automatic blood pressure cuffs. This newly transformed space now serves as the home for our cardiology associates and interventional team, creating a modern and efficient environment for patient care.

Phase Two will introduce our new Cardiothoracic and Vascular Suite. This expansion represents our ongoing commitment to delivering exceptional care and meeting the diverse needs of every patient who visits our facilities.

With these advancements, we are better equipped to meet the needs of our community, ensuring that every patient benefits from cutting-edge treatments and a seamless care experience.

Joshua Purow, MD, FACC, Felipe Albuquerque, MD, J. Elias Collado, MD, Alexander Llanos, MD, Joshua Larned, MD

Dorothy Mangurian Comprehensive Women's Center

Our commitment to advancing care is supported by key technological investments. The addition of two mammogram diagnostic workstations and several general diagnostic workstations enables our radiologists to read images on-site, ensuring faster diagnosis and improved patient care. These advancements translate into quicker treatment decisions and, ultimately, better outcomes for our patients.

The acquisition of the Hologic Acessa Device marks a transformative step in offering women minimally invasive alternatives to traditional surgeries like hysterectomy. For those suffering from fibroid symptoms, this innovative technology reduced recovery time and complications, significantly enhancing quality of life.

We continue to make strides in advancing women's health, with a focus on serving those most in need. Through our Partners in Breast Health Program (PIBH) in the last two years, we have facilitated over 700 breast cancer screenings for uninsured, lower-income women aged 40 and

over. This initiative empowers women by providing crucial access to life-saving screenings and care that they otherwise might not receive.

By focusing on early detection and timely intervention, we have saved lives and significantly reduced the number of late-stage diagnoses.

Michael and Dianne Bienes Comprehensive Cancer Center

Patient Spotlight

In June 2023, Denise was diagnosed with breast cancer. Originally from Boston, she moved to Fort Lauderdale in 2021. Without many friends or family in her new home, the diagnosis was a daunting experience. After seeking a second opinion, Denise decided to be treated at Holy Cross Health.

“Your breast cancer clinic was amazing - please keep doing that! The hospital ran so efficiently,” Denise shared. “The thoughtful and organized care at Holy Cross was comforting.”

“Of course, I would rather not have been diagnosed with breast cancer, but honestly, it is the best thing that has ever happened to me because it has changed my life for the better, and the healthcare providers I met at Holy Cross Health are the reason for it.”

Denise Guarino
Grateful Patient

Chaminade-Madonna High School Volleyball Team

The Chaminade-Madonna girls volleyball teams continued their tradition of giving back through the annual ‘CM Cares’ Invitational. This event benefits the Michael and Dianne Bienes Cancer Center. Since its inception in 2008, the invitational has generated over \$50,000 in funds, directly supporting advanced diagnostic testing and comprehensive treatment for cancer patients.

AutoNation Drive Pink

Holy Cross Health was honored to partner with AutoNation in the fight against cancer through their DRV PNK mission. AutoNation has been a significant force in contributing millions to this cause. Their commitment to supporting patients extends beyond funding; in 2023, AutoNation generously provided gift bags for patients receiving care at our cancer center. This collaboration enhances the patient experience and reinforces our joint mission of making a meaningful difference in the lives of those battling cancer.

Quilt Guild

In 2023, the East Sunrise Quilt Guild made a thoughtful donation of handmade quilts to the patients at the Michael and Dianne Bienes Cancer Center. Through their Create & Share for Charities Program, the Guild crafts and donates quilts to non-profit organizations across Broward County. These beautiful quilts offer warmth and comfort, bringing a personal touch of care to our cancer patients.

Sistrunk Clinic

The Sistrunk clinic opened in March 2023 and focuses on addressing the social determinants of health to promote health equity within the community. The clinic, led by nurse practitioners, offers comprehensive services, including primary care, physicals, immunizations, preventative care, diabetes education and prevention, on-site lab work and counseling.

In its inaugural year, the Sistrunk Clinic recorded 1,184 patient visits, demonstrating the community's need for accessible healthcare services.

Holy Cross Health's School Health program supports over 3,000 students annually in Broward County parochial schools and the community by providing essential health services and education. This program provides on-site vision, hearing and scoliosis screenings for students from kindergarten to 6th grade.

The program offers training for school faculty, such as Basic Life Support (BLS), CPR, First Aid and educational sessions for students on topics like hygiene, puberty and dental health. Through the Vaccines for Children (VFC) Program, we help Medicaid-eligible or uninsured children receive necessary vaccinations, promoting healthier families and communities.

Thanks to Florida Blue's generous support, the clinic at Sistrunk has made significant strides in providing accessible, high-quality healthcare to the 33311-zip code. Their contribution has been instrumental in advancing our maternal health initiatives, ensuring that women and newborns in the Sistrunk neighborhood receive essential care and resources.

Institute for Nursing Excellence

Through the continued support of our donors, the Institute for Nursing Excellence has been dedicated to supporting the professional growth and well-being of our nurses by providing funding for recruitment and retention, educational programs, certifications, training, scholarships, and engagement initiatives. These opportunities have empowered our nursing staff to advance their careers and excel in their roles, enhancing the quality of care they provide.

In line with our commitment to nursing excellence and patient care, we have also invested in a Vein Finder device to assist our nurses in locating veins and starting IVs with greater ease. This innovative technology improves the accuracy and efficiency of IV insertions, enhances the overall patient experience and reduces the risk of infections, further safeguarding the health of our patients.

Christina Maragh
Population Health Nurse,
Orthopedics-Sports

The Robert and Eugenie Friedman Awards

The Friedman Awards are granted annually to full-time Holy Cross colleagues who embody the qualities of compassion, commitment to clinical excellence and genuine intellectual curiosity. This program is designed to support the professional development of our staff by providing awards for continuing education seminars, conferences and short-term certifications. 96 Awards were provided in FY23 and FY24, empowering staff to acquire new skills and enhance the quality of patient care. This opportunity is made possible through the generous support of the Friedman family, who carry forward the legacy of Robert and Eugenie Friedman and ensure the sustainability of this program year after year.

Through the Friedman Awards, Christina attended the AAOS Annual Meeting, where she focused on courses most relevant to her role.

Christina shared, “The Friedman Award gave me an opportunity for education that I would not have been able to afford on my own. Additionally, I am ONC (Orthopedic Nurse Certified), which requires an additional 50 hours of orthopedic courses beyond licensure requirements. The AAOS meeting provided training that I may use toward renewing my certification.”

Evening of Gratitude

On January 17, 2024, Holy Cross Health hosted an Evening of Gratitude to express heartfelt appreciation to our generous Philanthropy Circle donors, Board members and Sponsors.

During the dinner, Holy Cross cardiologist Karan Munuswamy, M.D. was presented with the inaugural Remarkable Philanthropy Champion Award for his 40-plus years of treating patients and fundraising at Holy Cross Health. The Remarkable Philanthropy Champion Award is awarded to an exceptional individual, physician, donor, board member or colleague who demonstrates a significant philanthropic impact through generous contributions or their ability to inspire others to give.

Golf Classic

The Harry T. Mangurian, Jr. Foundation Holy Cross Health Golf Classic, presented by Stiles, supports the Partners in Breast Health Program at the Dorothy Mangurian Comprehensive Women's Center. This program delivers outreach education, clinical exams, screening mammograms and diagnostic procedures to low-income and minority women who face barriers to healthcare access. In FY23 and FY24, the tournaments collectively raised over \$411,000, enabling us to continue offering these critical services to the community.

Taren O'Brien, Rita Case and Paul McGourty

Colleague Giving Kickoff

In FY24, over 250 colleagues demonstrated their commitment to the Holy Cross Health mission, raising over \$129,000 to support vital programs and services. A key driver of this success was the launch of the inaugural Health Champions Colleague Giving Campaign, which focuses on engaging colleagues to give back. Contributions from colleagues throughout the year further strengthened our colleague-focused funds, including employee hardship, appreciation, engagement and education. We are deeply inspired by our colleagues' generosity and dedication as we continue to heal and give together.

Kristin Costanzo, Ginger W. Soto

Lavender Alert Cart

Holy Cross colleagues gathered to bless our new Lavender Alert Carts, part of a program supporting staff, especially nurses, after challenging incidents and trauma. The initiative includes response team training to enhance well-being, resilience and the ability to provide exceptional care. We are grateful to the Hugoton Foundation for their generous donation, which made this program possible, and we look forward to its positive impact on our nursing staff and the care they provide.

Kathleen Stout

Philanthropy Gallery Unveiling

The unveiling of the new Philanthropy Gallery donor wall was a celebration recognizing the contributions of individuals and organizations that have generously supported our mission over the years. The event also marked the introduction of our new Giving Societies, proudly showcasing the names of its esteemed members on the donor wall.

Family Health Center

Community Foundation of Broward staff with Holy Cross Health leaders

The Holy Cross Family Health Center is nearing completion and is scheduled to open in spring 2025. The renovated facility is made possible through the philanthropic support of The Jim Moran Foundation, The Harry T. Mangurian, Jr. Foundation, S. Donald Sussman, Aetna, and many other generous donors. The 15,500-square-foot facility, located on the first floor of the Medical Plaza at 5601 N. Dixie Highway, will provide comprehensive, patient-centered care by integrating primary care, pediatric speech, occupational and physical therapies, mental health support, culinary teaching kitchen and education space in one convenient location. The center reflects our dedication to providing greater access for patients to address the unique healthcare needs of the Broward community.

Jon & Helaine Ayers Rehabilitation Institute

The renovation of the outpatient rehabilitation center at the main hospital is on the horizon, thanks to the generosity of Jon and Helaine Ayers and other generous donors. The new center, slated to be completed in spring 2025, will provide comprehensive care for individuals suffering from neurological, oncologic, vestibular and complex orthopedic conditions.

The renovation will include upgrading equipment to the latest advancements in specialized rehabilitation technology. The new equipment will include overhead lift systems, stand-assist devices, a gait and balance overhead track system, balance equipment, specialized exercise equipment, functional electrical stimulation (“FES”) bikes and other FES systems, a vestibular chair, hi-low table mats and more.

With a new state-of-the-art facility and equipment, we will deliver the most effective and innovative treatment to those in need.

Jon Ayers

Donor Spotlight

S. Donald Sussman

Philanthropist and financier S. Donald Sussman, founder and chief investment officer of Paloma Partners, has generously donated \$1 million to Holy Cross Health. His gift will support the modernization of the building that will become the Family Health Center. In recognition of his gift, the Emergency Department's drive-thru entrance has been named the S. Donald Sussman Emergency Drive Thru Entrance. Sussman's support will significantly impact improving healthcare access and responding to the diverse needs of the community, further solidifying Holy Cross Health's promise to provide high-quality care.

Didier Moritz

After his own positive experience as a patient, philanthropist Didier Moritz chose to give back to the hospital that made a difference in his life through a charitable gift annuity. As a new member of the Philanthropy Circle at the Luminary Society level, Didier has joined this exclusive charitable group of supporters. A charitable gift annuity is a planned gift that provides Didier with a fixed income during his lifetime while also supporting our mission. His gift ensures that the hospital will benefit from his generosity for years to come, leaving a lasting legacy that strengthens and advances the care we provide.

Giving Societies

In FY24, we introduced eight new Giving Society levels. The Giving Societies are designed to express our deepest gratitude and honor the cumulative, generous contributions of individuals and organizations dedicated to advancing our mission through philanthropy.

Philanthropy Circle

Supporters whose cumulative gifts or pledges have reached Philanthropy Circle levels join a charitable group that supports the mission of Holy Cross Health. In appreciation of their generosity, individuals who have contributed \$100,000 or more receive non-medical concierge services and amenities. These include access to a philanthropy concierge navigator to assist with appointment scheduling, pre-admissions, transfers, referrals and special amenities such as a suite or private room during hospital stays. Donors are also recognized on the donor wall and receive invitations to exclusive events and potential naming opportunities based on their giving level.

Through philanthropy, we are building excellence together!

Giving Societies

The Giving Societies at Holy Cross Health were established to express gratitude and acknowledge the generous cumulative contributions of individuals and organizations who have dedicated themselves to advancing the mission of Holy Cross Health through philanthropic support.
